### **Independent Auditor's Report**

To the Chairperson of ActionAid Association

### Report on Financial Statements

We have audited the accompanying financial statements of ActionAid Association ('the Society') which comprise the Balance Sheet as at 31 March 2016 and the Statement of Income and Expenditure for the year then ended and a summary of significant accounting policies and other explanatory information.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance of the Society in accordance with the accounting principles generally accepted in India and the Accounting Standards, to the extent applicable, issued by Institute of Chartered Accountants of India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Society's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Society's policies used evaluating the appropriateness of accounting and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### BSR & Associates LLP

### **Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give a true and fair view in conformity with the accounting principles generally accepted in India:

- (i) in the case of the Balance Sheet, of the state of affairs of the Society as at 31 March 2016; and
- (ii) in the case of the Statement of Income and Expenditure, excess of income over expenditure of the Society for the year ended on that date.

### Significant accounting policies

### (a) Basis of preparation of financial statements

The accompanying financial statements are prepared and presented under the historical cost convention, on the accrual basis of accounting, in accordance with Generally Accepted Accounting Principles ('GAAP') in India, and practices prevailing in India as applied consistently by AAA.

### (b) Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of income and expenses during the reporting period. Examples of estimates include useful life of fixed assets etc. Actual results could differ from these estimates. Any changes in estimates are adjusted prospectively.

### (c) Fund accounting

Restricted fund are grants received from various funding agencies/ individuals to carry out specific activities. These are held in Society until used for the purpose specified against them. At the end of the agreement, the unutilized restricted fund is returned to the respective donor. In case the unutilized amount is not required to be returned to the respective donor, the same is transferred to Statement of Income and Expenditure in the relevant year in which the project is completed.

Remittances received from donors for specific projects/ activities are disclosed under restricted funds. Disbursements made to other non-governmental organizations and project expenditures out of the restricted funds are netted off from the restricted funds and included in the statement of income and expenditure as 'Amount transferred from restricted funds to the extent of expenditure incurred.

) Charles

*Unrestricted funds* are contributions received or funds generated by the Society, the use of which is not restricted by the contributors/ donors.

### (d) Revenue recognition

General donations and grants received for welfare programs carried out by the society are accounted in the Statement of Income and Expenditure on cash basis.

Interest income on Savings Bank accounts is accounted on cash basis and interest income on fixed deposits is accounted on accrual basis.

### (e) Foreign currency transactions

Foreign currency transactions are recorded at the exchange rates prevailing on the date of the respective transactions. Realized gain and losses on foreign currency transactions during the year are recognized in the Statement of Income and Expenditure. Monetary foreign currency assets and liabilities remaining unsettled at the Balance Sheet date are translated at year end rates and resultant gains/ losses on foreign currency translation are recognized in the Income and Expenditure account.

### (f) Fixed assets

Fixed assets are stated at the cost of acquisition including incidental costs related to acquisition and installation, less accumulated depreciation and impairment losses, if any. Cost is inclusive of freight, duties, taxes and other directly attributable costs incurred to bring the assets to their working condition for intended use.

Depreciation on fixed assets is provided on written down value method at the following rates:

Asset	Rate (in %) Per annum
Computers	60
Office equipment	15
Vehicles	15
Furniture and fixtures	10

The above rates and methods of depreciation are also in line with the estimated useful lives, as determined by the management.

The appropriateness of depreciation rate and depreciation method is reviewed by the management in each financial year.

### (g) Impairment

The carrying values of assets are reviewed at each reporting date to determine if there is indication of any impairment. If any indication exists, the asset's recoverable amount is estimated. For assets that are not yet available for use, the recoverable amount is estimated at each reporting date. An impairment loss is recognized whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount and is recognized in the Profit and Loss Account. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined net of depreciation or amortization, if no impairment loss had been recognized.

### (h) Provisions, contingent liabilities and contingent assets

A provision is created when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

### (i) Leases

Lease payment under an operating lease is recognized as expenditure in the statement of income and expenditure on a straight line basis over the lease term.

### (j) Employee Benefit

Benefits such as salaries, etc., are recognized in the statement of income and expenditure in the period in which the employee renders the related service.

**Defined contribution plan:** The AAA's employee provident fund scheme is a defined contribution plan. A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions and will have no constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in the Statement of Income and Expenditure in the year when the employee renders the related service. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

### Defined benefit plans:

### Gratuity plan

The AAA's gratuity plan is a defined benefit plan. The present value of gratuity obligation under such defined benefit plan is determined annually based on an actuarial valuation carried out by an independent actuary for the plan using the Projected Unit Credit Method, which recognizes each period of current and past service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rate used for determining the present value of the obligation under defined benefit plans, is based on the market yields on Government securities as at the valuation date having maturity periods approximating to the terms of related obligations. Actuarial gains and losses are recognized immediately in the Statement of Income and Expenditure. Gains or losses on the curtailment or settlement of any defined benefit plan are recognized when the curtailment or settlement occurs.

The Society has taken a policy with the Life Insurance Corporation of India to cover its liability towards gratuity. The difference between the fund balance with the Life Insurance Corporation of India and the gratuity liability of the society, as determined by an independent actuary, is charged/written back to the Statement of Income and Expenditure.

### Other long term benefits

Benefits under leave encashment constitute other long-term employee benefits. The liability in respect of leave encashment is provided on the basis of an actuarial valuation done by an independent actuary at the year-end using the Projected Unit Credit Method. Actuarial gains and losses are recognized immediately in the Statement of Income and Expenditure.

### (k) Expenditure

Monitoring expenses: The Society implements its programmes for strengthening training, research and policy development in the area of eradication of poverty through projects conducted by itself or by other local non-governmental organizations to which it disburses grants. Accordingly, expenditure incurred by the Society during the year to monitor such non-governmental organizations and implement their internal projects is charged to Statement of Income and Expenditure.

Fund raising expenses: Until 31 March 2015, the society has been incurring and reporting the fund raising cost in Schedule 10 'Administration and Other Expenses'. These have been reported separately in Schedule 8 'Fundraising expenses' in the current financial year i.e. 2015-16.

### 12. Employee Benefit Obligations:

Provident fund: An amount of Rs. 9,597,438 (Previous year Rs. 9,672,905) has been recognized as an expense in respect of the AAA's contribution for provident fund deposited with the government authorities and has been shown under personnel expenses in the Statement of Income and Expenditure.

Gratuity plan: The society operates a gratuity plan wherein every regular and contractual employees (with fixed term of three years and above) and who has completed three years of service, is eligible for gratuity as per the group gratuity scheme of the Life Insurance Corporation. The plan allows one month's basic salary per year of service (after a minimum of three years' service) to be paid. In addition, in case of death in service, the legal heir / heiress or the nominee of the staff as the case may be, is eligible to receive gratuity for the balance potential service up to the normal retirement age.

Other long term benefits: The society operates a leave encashment plan wherein every employee shall be entitled to encash privilege leave up to maximum of 30 days a year. The salary for calculation of earned leave is last drawn gross salary. Leave can be encashed up to a maximum of 30 days only at the time of resignation or death of the employee while in service.

Principal actuarial assumptions in respect of provision for gratuity and compensated absences at the balance sheet date are as follows:

Economic assumptions	As at 31 March 2016	As at 31 March 2015
Discount rate* Expected rate of salary increase*	8% 7%	8% 7%
Demographic assumptions		58 Years
Retirement age Mortality table	58 Years Standard Indian Assured Lives (2006-08) Ultimate Table	IALM (1994-96)
Withdrawal rates (%):		
Age Up to 30 years 31-44 years Above 44 years	3.00 2.00 1.00	3.00 2.00 1.00

\*The discount rate is generally based upon the market yield available on the Government bonds at the accounting date with a term that matches that of the liabilities and the salary growth rate takes account of inflation, seniority, promotion and other relevant factors on long term basis.
